FINE FOR KIDNEY AND BLADDER WEAKNESS

STOP GETTING UP NIGHTS
LOOK AND FEEL YOUNGER

Keep your kidneys free from waste matter, poisons and acid and put healthy activity into kidneys and bladder and you'll have a healthier, happier and longer life.

One most efficient and harmless way to do this is to get from druggist a 35-cent box of Gold Medal Haarlem Oil Capsules and take them as directed. The swift results will surprise you.

Besides getting up nights, some symptoms of kidney trouble are backache, moist palms, leg cramps and puffy eyes. If you want real *results be sure to* get GOLD MEDAL—the original and genuine—a grand kidney stimulant and diuretic—right from Haarlem in Holland. Give your kidneys a good cleaning once in a while.—Adv.

Colitis

Among our complicated ... extensive organs are ... structures the colon is one of the most important. This lower part of the large intestine is subject to irritation, inflammation, infection and other disturbances.

Colitis, the medical name of an inflammation of the colon, is a common disorder. As its name indicates, it is an inflammation of the lower bowel.

The victim suffers from indigestion, constipation or diarrhea, loss of weight, pain or discomfort in the abdomen. As a rule the stools are watery, carrying large amounts of mucus. In severe cases the mucus may resemble shreds of membrane. In most cases blood and pus are present in the stools.

The inflammation may be so severe as to cause painful evacuation. Indeed, the sufferer usually complains of intense abdominal pain or cramps. Fever, chill and other signs of *infection* are additional signs that must not be overlooked.

There are many causes of colitis. It may be traced to chronic constipation or faulty diet, or it may be the end result of some chronic infection within the body. Sometimes it follows a particular infection and is always present in cases of dysentery and other similar disorders.

If you notice mucus, shreds of blood in the stool, consult with your doctor. Never neglect this condition. The symptoms may be due to colitis, or they may be the first sign of some other disturbance. That is why you should visit the doctor.

If the disease is definitely diagnosed as colitis, follow the medical advice given. Bear in mind that each case presents its own problems. Because of this no definite form of treatment can be applied to this disease. As a rule it is best to avoid mineral waters, as well as the excessive use of salt, pepper and other condiments. The diet should be simple and nutritious, consisting of foods that are easily digested.

It is a good plan to have the inflamed intestine well cleansed at periodic intervals. This is best accomplished by a daily hot or warm enema taken just before retiring. Never resort to the use of periodic cathartics or other powerful drugs. (...ght, 1937, by The H...)

UNDER FIRE

The 52nd Ohio Volunteer infantry got an early baptism of warfare in the Civil war. Organized in the summer of 1862, it was ordered to hurry into Kentucky to the aid of General Nelson who had suffered heavy losses.

The weather was unmercifully hot and the members of the 52nd, not inured to field hardships, suffered terribly. The succeeding days were slightly cooler and the Union forces after a rest in Louisville began a successful counter attack with the Ohio forces playing an important part.

The Teacher

Valuable information probably will be gained in the investigation of the Hindenburg disaster for the first time an airship accident has occurred under circumstances favorable to such a study

Moving pictures and still pictures show the ship's destruction in its early stages Many persons with the latter even though the actual cause of the fire may never be positively known find that it probably will be one of the three major possibilities

Like all great disasters the burning of the Hindenburg will bring a reorganization in a wider margin of safety for the future

The conclusion that hydrogen must be discarded will not go unchallenged Hydrogen still is the lighter gas The problem is to make it safe German thought it had solved that problem the Hindenburg's destruction proved it hadn't

Experience is the best teacher Airship builders always have known about the theoretical action of hydrogen They know now what actually happens when a hydrogen filled ship catches fire They know incidentally why Germany whose airship industry is a potent military factor would like to have helium

But helium the fact remains is rare and therefore expensive It is heavier than hydrogen It would be inadvisable further more for the United States which controls most of the world's supply to make available to Germany a gas which would give it a tremendous military advantage

Germany's problem is to make hydrogen safe for commercial airships If possible or if that be too much to convince the world that it would not misuse helium if that important gas were sold to it

Postlude

If the usual calculation applies in this special case it is about now that the mothers day bouquets are wilted mother's day candy has dwindled to the final three pieces on the bottom layer and most of the other tender tributes to motherhood are losing the edge they had last Sunday when they were fresh

All this means is that the party's over and it's time for mother—who is just mamma the rest of the year—to lean into the harness again so she will have earned another bouquet or a box of candy a year from now There are some of the things which need her immediate attention

The children must be coaxed to study so they will get passing grades in their final exams The housecleaning must be finished Somebody must plant the flowers or make father plant them which is about the same thing There of course are over and above the ordinary duties which make mother wish at any time of year she could lock up and have 24 hours comfort and relaxation

Last Words

The general assembly which has just passed an appropriation bill and scuttled into the relative obscurity of adjournment since die after 18 weeks of frustration

It would be hard to add anything to what has been said about this particular general assembly while it was in existence The stunt now is reminiscent of the story about the orator who was called upon to preach the funeral sermon for the community's most notorious scamp

After stating all the factual information about the departed the kindly pastor paused to think of some tribute The pause became embarrassingly long Finally to put some kind of a finishing touch to the proceedings he patted and famously Our brother was a great smoker

Suspense

President Roosevelt will get the White House job which many have looked and which has been the personal goal for many years but will he long for another term in office

Will Mr Roosevelt be satisfied and contented to spend the remainder of his life as leader of his political following

Will Mr Roosevelt be able to move out of the limelight and grow old gracefully

Will Mr Roosevelt escape the fate of the long line of presidents who have been forgotten men

The Hidden Interest in Spain

It may be [illegible] to [illegible] Spain is a [illegible] with the developing struggle between Britain's big and democratic powers on the one hand and forces outside Spain There is another struggle going on in the Spanish civil war too the struggle between Great Britain and Italy for naval supremacy in the Mediterranean The whole world [illegible] its eyes on Mediterranean when the British navy [illegible] in the last week Italy officially the British pretended that the war-making row to avoid war were playing the parallel role had decided to turn the other cheek

But on officials British government officials confessed with chuckles and grinned Italy to quite different motives The truth was the British navy no longer dominated the Mediterranean not because vessel for vessel counted for [illegible] explain the British might be no match for the British fleet but because new factors had come into naval warfare and in the Mediterranean had limited the naval [illegible] temporarily in favor of Mussolini

The new factor was the advantage of submarines [illegible] submarine and airplane In the Mediterranean more than elsewhere one British admiral remarked the world [illegible] with submarines [illegible] and one Pact submarine but a number North sea planes and [illegible] would be a great advantage Italy's fleet could

MOST MOTORISTS GET MOST MILEAGE with SOHIO X-70!

Read What They Say—

[These excerpts taken from among thousands of letters received by Standard Oil]

"I GET 2 TO 4 MILES MORE PER GALLON" →

"I buy gasoline that gives the most miles per gallon and the best performance, regardless of the make. After trying every kind thoroughly, I have finally settled down to X-70 exclusively. Every tankful is the same. Performance is perfect, and I get 2 to 4 more miles per gallon." (*Letter from Chevrolet owner, Waldo, O. Name on request.*)

← Noted University Pays Remarkable Compliment to X-70! "X-70 is unequalled in uniformity. I am a student at (*famous University. Name on Request.*) At school we ran numerous tests on various blends of gasoline. In all cases, we use X-70 as a constant in comparing the blends for advantageous qualities." (*Letter from Ford owner, Cleveland Hts., O. Name on request.*)

"I DON'T KNOW OCTANES FROM OYSTERS *BUT*"—"Being a woman, I may not know octanes from oysters, but I do know performance. My car was knocking so I tried filling the tank with X-70. The subsequent journey was a delight. Traffic pick up and hill climbing were also improved." (*Letter from Georgetown, Ohio motorist. Name on request.*) →

←157,000 MILES ON X-70 EXCLUSIVELY!

"Facts outweigh ballyhoo. We have driven our car one hundred and fifty seven thousand miles in Ohio using only X-70. The motor is still in good shape. We found X-70 dependable, powerful—highly efficient in all respects. It was always uniform in quality and served by uniformly courteous attendants. What more can one want in a motor fuel?" (*Letter from 1929 Studebaker owner, Columbus, Ohio. Name on request.*)

"One friend tells another,

'Make a real test of SOHIO X-70 and you'll save real money.' That's because SOHIO'S special refining processes give you a definite *bonus* on mileage... freedom from harmful corrosives... and reliable power for all road emergencies. Start a 'tankful test' of X-70 today and see for yourself!"

VENDING DEVICE CASE APPEALED

Injunction Sought Against Police Chief by Columbus Amusement Firm

The Ohio Amusement Co of Columbus today filed in the third district court of appeals a brief in its effort to obtain an injunction against Police Chief William E Mauk to prevent him from confiscating and destroying mutoscope machines made by the company

Notice of appeal was filed seconds after Common Pleas Judge Hector S Young denied an injunction and overruled a motion for a new trial The brief was filed with Cook Cook Cathcart Haleman & Spicer & Morse attorneys for the company

The larger part of the document is filed with a transcript of testimony in Hamilton county court and because of its length will be printed at the local office in March

In a statement of the points of the brief the attorneys argue that there is no evidence to support the court's finding which was that the defendant with no oral or written opinion We submit that a careful study of the testimony clearly shows there is no evidence in the record showing the Viking Silent Salesman to be a gambling device

Typical of the questions and answers contained in the brief are the following by Grant L Mosser Jr and Mr Norwood

Q What is the business of your company A We are dispensing breath pellets

Q And did you endeavor to place these machines in the city of Marion Ohio A Yes we did We heard that they wouldn't allow any machines in town and we had the machines up here once before and we took it up with Mr Marks through Mr Cathcart and they told us they would confiscate any machine we might put in

Q Now if a five cent coin is inserted what happens in this machine A The party making the purchase receives his breath pellets is all

Other questions and answers reveal that the purchaser may operate a toy steam shovel inside the vending machine in an effort to scoop up prizes It is this feature of the machine which makes it a gambling device City Solicitor Ralph E Cathart and Chief Marks contend

The brief quotes other decisions in which it was ruled It is not gambling where the players of a slot machine received value for their money in the kind of commodities sold in the place the pinochle where the machine was kept

And further The Ohio supreme court has held however that a slot machine is not per se a gambling device such that the keeping of one will render a person guilty of keeping and exhibiting a gaming device for gain The intent to keep the machine as a gaming device for gain is the essence of the offense This may be shown by redeeming checks won by the player this bringing something of value to the player for nothing But until something is received in the future as a result of operating the device there can be no violation of the statute A simple merchandising machine which gives no gain to the player as a result of his operation of the machine is not unlawful even though the machine at intervals rewards the player with checks redeemable in merchandise where it indicates in advance of each deposit of the coin exactly what it will dispense

The next step in bringing the matter to the attention of the appellate court will be filing of an answer brief by Mr Cathcart

CORONATION FLIERS GIVEN BAD NEWS

By The Associated Press

SOUTHPORT Eng May 13 Dick Merrill and Dick Lambie got more bad news today while raising cheers and shouts of delight upon their return Merrill said

The company which previously had agreed to supply him with motion pictures of King George's coronation to be flown to the United States changed its mind Merrill said

They will carry only still pictures of the coronation he said and thus they will make a good deal less money than they had hoped

Nearly sixty hours of vigil may be said to be a matter of fact to sleep when there's a coronation parade in prospect This picture radioed from London to New York shows loyal British women subjects enjoying supper the night of May 11 while facing the prospect of sitting all night in the open as well as being on hand to cheer their king and queen George VI and Elizabeth in the coronation parade I counted thousands slept all night in the open to keep their points of vantage along the line of march (Associated Press Photo)

HEARING ON WATER RATES ADJOURNED

(Continued from Page One)

American furnishes management services only to companies in which it holds an interest in the common stock

The American he said furnishes 16 different services to the Marion Water co including right services of executive to make it unnecessary to maintain executive officers in the local plant and expense to conduct rate controversies He said he estimated the services would cost conservatively $15 200 a year if not obtained through the American company and added that the American further gives its local companies the advantages of group purchasing at reduced costs

The Marion company he said is one of a group of more than 40 to which the American company began furnishing management service about a year ago and consequently the American has not yet had opportunity to put into effect all of the economies and improvements it has planned for Marion Chief among these he said are plans to reduce the hardness of the water from the present maximum of 12 grains a gallon as provided in the franchise to around six grains a gallon and the elimination of 12 hour days and 7 day weeks for some of the employes

Of the hardness of the water he said considerable chemical treatment is necessary to reduce the hardness to 12 grains as provided in the franchise but that this hardness which is the equivalent of 200 parts per million of hardness is still hard water Waterworks engineers generally have come to agreement that 100 grains a gallon marks the dividing line between hard and soft water he said adding that a reduction of the hardness to 100 parts per million or six grains a gallon would make the water infinitely more satisfactory for consumers

The and other improvements planned for Marion he said will be brought about if the company can effect economies in other phases of the operating costs to permit the changes without increased total operating costs An eight hour day and six-day week are sought for all employes he said

Mr Biggs was not cross examined by Solicitor Cathart who explained he would like to obtain a written copy of Mr Biggs testimony and obtain advice from other experts before attempting to rebut it

Other Witnesses

Other witnesses heard in the afternoon session were L W Wood who began his testimony in the morning and finished in the afternoon after serving as the only witness called by the city and two company witnesses who previously had testified They were E K Berry of New York assistant chief engineer of the American company and Louis A Mesereau of New York an accountant for the company

Mr Wood who had said in an audit prepared for the city that the value of the company's assets in terms of percentage of its book value had apparently increased in recent years rather than decreased was quizzed in cross examination by John T Murdoch Recalling that Mr Wood had told the commission the value had increased from $ to $ on Oct 31 1936 Mr Murdoch asked if the actual cost of additions made by the company during the period Mr Wood's audit covered he (Mr Wood) said when asked by Mr Murdoch to give the dollars figures and ratios made by the company between the two dates said he (Mr Wood) suggested that the city and the company be allowed to submit by the company to be incorporated in the record as exhibits Mr Wood suggested the commission accept as allowable expenses and (2) the estimate of operating expenses which Mr Lowrie vice president of the company had submitted

Mr Murdoch said he planned to recall Mr Mesereau to testify further that due to the late hour his testimony would be filed with the commission and all in writing in the near future

Lewis Kills Peace Move by Demanding Green Yield to His Policies

By The Associated Press

WASHINGTON May 13—Labor leaders faced a long impasse today in efforts to arrange peace between John L Lewis and the American Federation of Labor

Lewis killed a peace overture by the Labor Department Workers united they said in the first declaration that they did not want peace

Lewis head of the committee for Industrial Organization told a convention of the union yesterday at Atlantic City

If the federation wants peace let it issue some statement that it is willing to settle the principles on which the CIO was founded

The cabinet worker and Lewis union split developed into a major battle with each side summoning and holding mass meetings to explain its position

It was the third time in as many days that Green and Lewis had met before committees only to adjourn the meetings without reaching any agreement

The latest parley was called when Lewis refused to appear before the executive council of the federation unless Green and other council members would agree to withdraw charges that the CIO was dual and dictatorial

Lewis also refused to attend a meeting of the federation executive council Monday unless Green and other council members would agree to withdraw charges that the CIO was dual and dictatorial

IRISH BLOW UP STATUE OF KING

By The Associated Press

DUBLIN IRISH FREE STATE May 13 The equestrian statue of King George II in centrally located Stephens Green park was blown up today

The terrific blast smashed windows of buildings around the park but no injuries were reported The streets were littered with glass

Several hour before the explosion police discovered a large store of ammunition in the Stephens Green vicinity

It was believed the charge touched off today was laid under the base of the statue weeks ago

Meetings of demonstration against the coronation of King George VI in London yesterday passed off without incident

REBEL FORCES SURGE NEARER TO BILBAO

Planes Help Offensive by Bombing and Strafing Basque Entrenchments

By The Associated Press

GUERNICA Spain May 13—Gen Francisco Franco's northern insurgent army rolled government forces closer to the Basque capital of Bilbao today in a general engagement along a 15-mile battle front which reached at some points within five miles of the beleaguered city

From the north and the east the insurgent troops pressed their drive to crush the defenses of the city where refugees have swelled the population to over 300 000

Insurgent planes prepared the way for the attack bombing and strafing with machine gun fire the Basque entrenchments on the slopes of the green hills

The heights north and just east of Munguia eight miles north of Bilbao fell into insurgent hands shortly after the attack opened as wave after wave of infantry swept the Basque defenders before them

FORMER MINISTER AT MORRAL IS DEAD

Rev. A. R. Toothacre 79 Dies in Burlington Iowa Hospital

Rev. A. R. Toothacre 79 who formerly lived in Marion and was pastor of the Grand Prairie Baptist church which had been destroyed by fire and erected the Baptist parsonage in Morral died April 30 in the Burlington Ia. hospital.

No details account of his death was received here today.

Rev. and Mrs. Toothacre went to Morral in the early 90's to take up the work of the Morral and Grand Prairie Pioneer churches and it was during his service to the two churches that he organized the Wyandot church and left the completed church building a place of worship.

Though they left the community more than 40 years ago they kept in close contact with many friends in the vicinity throughout the years.

Rev. Toothacre was born in Circleville Jan. 9 1858. He was a graduate of Hillsdale college in Hillsdale Mich. He held a number of pastorates in Iowa but most of his work was done in Michigan Ohio Massachusetts Rhode Island and New Hampshire. His last active pastorate was in Hancock O. His wife died at Hancock and he felt unable to carry on an active pastorate alone. He retired and went to Burlington.

The funeral and burial were conducted May 4 at Burlington.

MRS ELLEN SIMMONS CLAIMED BY DEATH

Weeks Illness of Influenza Laid To Marion Woman

Mrs. Ellen Simmons 68 widow of the late Joseph Simmons died last night at 11:35 at the home at 386 Chestnut street. Death followed a weeks illness of influenza.

Surviving are three sons Joseph L. Simmons of 31 South Grand avenue, Bernard Simmons of 145 West Mark street and Patrick Simmons at home five daughters Mrs. Mary Griffin of Ballentine avenue, Mrs. Grace Dutt of 93 Dix avenue, Mrs. Peter R. Stahl of 260 Sixth street and Misses Lilla and Elizabeth at home 11 grandchildren and one brother Daniel P. Quinn of 115 Mary street.

Mr. Simmons was born in Marion county on Oct. 26 1868 to Edward and Ellen Murph Quinn who came to this country from Ireland. She was married at Marion O. to Joseph Simmons who died on Jan. 11 1936.

She was a member of St. Mary's Catholic church and of the Altar society.

The requiem mass will be celebrated Saturday at 9 a.m. at St. Mary's church by Rev. Father William J. Spuckman pastor. Burial will be made in the St. Mary's cemetery. Friends may view the body at the home after 7 tonight.

RITES HELD FOR CHARLES LAYMAN

The funeral of Charles E. Layman of 139 Waterloo street veteran Marion shoe maker was conducted yesterday at 2 p.m. at the W. C. Boyd funeral home on West Columbia street by Rev. H. L. Twining of the Emmanuel Baptist church.

Burial will not be made until a son Charles H. Layman arrives. Members of the family said he was notified of his father's death aboard a boat coming from China to San Francisco and that except for a radio message to delay the burial no further word had been heard. The son has for a number of years been employed as a steward on one of the company vessels. His home is in San Francisco.

Among those who attended the funeral from out of the city were Mr. Harley Zimmerman, Mrs. Anna Keller, Mrs. E. M. Spitler and Mrs. Walter of Upper Sandusky, Mr. and Mrs. Walter Lay.

How Modern Women Lose Pounds of Fat Swiftly—Safely

Gain in Physical Vigor — Feel Younger With Clearer Skin and Vivacious Eyes That Sparkle With More Glorious Health

Here's the recipe that reduces fat and brings into blossom the natural attractiveness that every woman possesses.

Pounds of excess fat melt away at the Kitchen Way.

Every morning take one half teaspoonful of Kre-Mo Salts with a glass of hot water before breakfast and cut down on pastry and fatty meats, butter, cream and rich pastries—in 2 weeks get on the scales and note how many pounds of fat have vanished.

Notice also that you have gained in energy—your skin is clearer, eyes sparkle with more glorious health—you feel younger in body—keener in mind.

Get a 4-oz. bottle of KRE-MO SALTS at any druggist in the world—lasts for a week and costs but few cents.

Note—Many people find that the only diet change necessary while taking Kre-Mo is to [illegible]

FARMER COMPLETES PLANTING OF CORN

Distinction of being the first farmer in Marion county to complete his 1937 corn planting was claimed today by Herman Neville of Big Island township, nine miles west of Marion. Working alone since about two weeks ago, Mr. Neville put in 65 acres of corn, completing the job last night, he said.

Farmers say that most corn in the county is planted about the middle of May. One farmer said he believes the most corn is planted between May 20 and 25.

The first part of the 65 acres planted by Mr. Neville is already beginning to break through the ground, he said. Mr. Neville owns the old Conley farm.

Dodgers Trim Reds, 5 to 1; Medwick Helps Cards Win

By SID FEDER
Associated Press Sports Writer

The time has come for someone to carry the torch for Dizzy Wacky Medwick. Although now generally regarded as one of baseball's five most dangerous hitters and has played as big a part as anyone in the Card's fight to stay in the top flight the headlines a mobsaw has e missed him.

There's none instead to Dizzy Dean's roisterr exploits or to the youthful antics of such other gas ... so-gangsters as Pepper Martin. Yet Medwick has been producing game after game as vital to the Cards and their wart hel pitching staff.

Last season he led the league in batting, batted in 154 runs, was third in the batting race and put the name in the record books by collecting 64 two baggers and ten hits in 10 straight times at bat. In his five and a third years under the big ten he has hit for a .33 average.

So far this year he's leading the National League in batting with .41 in runs batted in in 16 hits and in doubles and in fact leads in runs scored. In the Cards 18 games to date he has failed to hit ...

That Rookie ... in the sixth inning ... by that time the Chicago Cubs had given him an advantage for the Boston Bees to overcome despite a pair of round trip ... Lee Moore and Tony Cuccinello. As a result Charley pulled out a 6 ... win for Chicago.

All but one game in the American League was rained out with the Chicago White Sox moving up to sixth place by trampling the hapless Washington Senators 15 6

Setup Changed

Last season eight clubs were entered in the Sunday school loops and they participated in two rounds of competition. This year with 12 teams in each league it will be possible for them to complete three rounds before the end of the season in August. The league champion will be selected on the basis of averages computed over the 42 game schedule.

Industrial league participants, eight strong, will compete in a two round 14 game program which will be completed about the same time as the Sunday school loop actively. All of the championship teams with the exception of one are returning for active participation in the 1937 schedule. Marion Steam Shovel Industrial league pennant winners are back in the think of the scrap but expect to find tougher picking this year.

Wesley No. 1 winner of No. 2 loop last year and Lee Street Pres byterians champs of the No. 1 conference are both entered in the 1937 No. 1 league. The two championship clubs fighting for the same pennant this season will meet for the first time on Jun 8 according to the present schedule Wesley under the direction of Manager L. H. McCher stands today as a slight favorite to cop a loop banner largely on the basis of its performance last fall in sweeping into a city championship by taking top honors in the Little World series.

Rules Unlimited

This year for the first time in the history of organized league both base stealing and bunting will be permitted. This decision was reached at a recent meeting of commission member. Bunting was last permitted about ... years ago and several seasons after it was outlawed base stealing was allowed. Previously both had been permitted at one time.

Other rules overrun, the league will clamp down on the practice of postponement or forfeiting of games. The commission ruled that

THE GREATEST TIRE EVER MADE TO SELL AT THESE LOW PRICES

COME in, examine a cross section cut from a Firestone Standard Tire, then examine the deep cut, non skid tread and see how much extra value you get. You will quickly understand why more and more car owners are equipping their cars with these tires. You will agree that never before have you seen so much quality, so much built in mileage and so much safety at so little cost. You will find the Firestone Standard Tire is made safer from blowouts with the Firestone patented process of Gum Dipping. The patented construction of two extra layers of Gum Dipped Cords under the tread protect against punctures and bind the tread and cord body into one inseparable unit. The wider, flatter tread with more rubber on the road will give you longer mileage and greater protection against skidding. Firestone is able to give you all these extra value because Firestone Standard Tires are built in such large quantities that great savings are made in production.

Don't drive another day on thin worn tires that are dangerous and may cause an accident. Join the Firestone SAVE A LIFE Campaign by equipping your car with Firestone Standard Tires — *First Grade Quality at Low Cost.*

Buy Firestone STANDARD TIRES TODAY AND SAVE!

YOU SAVE yourself and your family from dangerous accidents because Firestone patented construction features give you greatest blowout protection and safety from skidding.

YOU SAVE because Firestone Standard Tires give you low initial cost and lower cost per mile.

YOU SAVE by buying now as tire prices are advancing. The price of crude rubber has gone up 110% and cotton more than 26% during the past two years. BUY NOW AND SAVE.

DON'T RISK YOUR LIFE ON THIN WORN TIRES

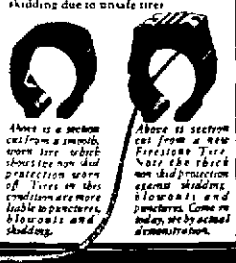
Protect yourself and your family from the danger of driving on thin worn tires which may cause a serious accident.

DO YOU KNOW

THAT last year highway accidents cost the lives of more than 36,000 men, women and children.

THAT a million more were injured.

THAT more than 40,000 of these deaths and injuries were caused by flat tires by punctures, blowouts and skidding due to unsafe tires.



Above is a section cut from a smooth, worn tire which shows how dangerously little protection worn or flat tires in this condition are more liable to punctures, blowouts and skidding.

Above is section cut from a new Firestone Tire. Note the thick non skid protection against skidding, blowouts and punctures. Come in today, see by actual demonstration.

Dizzy Dean and Jack Mowrey are all square again. Each has a monkey named after him. Jack Miley belongs to Mike Jacobs while Dizzy Dean was in under the right pin Brooklyn a few days ago. Hugh Bradley writes in the New York Post that the way Tom Carey's legs went back on him last week may be the tip off on what will happen when Braddock starts again.

There were 90 bookies at the track at Belmont yesterday. From this distance Henry Picard looks as good as anybody in the open. Jack Kearns is urging Gene Tunney to take charge for Detroit. Dizzy Dean and Lon Warneke are pals again and engage in tobacco spitting contests on days they're not hitting. If they never see a southpaw again it will be soon enough for the Giants.
